### COMMENTS ON FINANCIAL STATEMENTS

#### **RESULTS**

Net profit of the MCB Group declined by 8.4% to reach Rs 4.1 billion for FY 2011/12.

This result is testimony to the persistently testing economic environment. In addition to pressures on the demand for credit, results were affected by a major increase in impairment charges reflecting certain market strains. Besides, the profit evolution was restrained by an increase of 14.8% in operating expenses linked to the full-year impact of past capacity-building initiatives. However, on excluding non-recurrent gains notably accruing during the previous financial year, results were close to that of the latter period. This testifies to the resilience of the MCB's performance in the current challenging conditions, with the Group also depicting relatively healthy financial soundness metrics in terms of capitalisation, funding and liquidity as well as asset quality, although there has been a deterioration of the latter over the year. At Bank level, profit was boosted by an exceptional dividend income of some Rs 755 million from our Réunion-based associate, BFCOI, and was slightly up over FY 2010/11 when excluding non-recurrent items.

Core earnings of the MCB were underpinned by a rise of 8.5% in net interest income following the continued expansion in the loan portfolio. While non-bank activities were impeded by financial market volatilities, non-interest income was supported by an expansion of more than 18% in net fee and commission income principally stemming from the persistent rise in regional trade financing, reflecting the benefits being reaped from our international diversification strategy. Against this backdrop, the share of foreign-sourced income to Group profit stood at 43% for FY 2011/12 in spite of a decline in the contribution of BFCOI due to a notable increase in impairment charges.

#### **PROSPECTS**

Looking ahead, the local operating environment to which the Group is exposed is likely to be subject to key challenges, thus impacting its revenue-generating ability. Nevertheless, backed by strengthened internal capabilities and sustained market vigilance, the Group is well poised to seize the right growth opportunities and, in particular, the MCB remains intent on extending and deepening its regional involvement, in the light of the encouraging economic prospects of sub-Saharan Africa.

In making those risk assessments, the auditors consider internal control relevant to the Bank's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
