COMMENTS ON RESULTS

For the quarter ended 30th September 2017, operating income rose by 6.1% to reach Rs 3,448 million, contributing to a growth of 6.9% in profit after tax amounting to Rs 1,542 million.

Net interest income increased by 6.9% to reach Rs 2,301 million as a result of an increase of 10% in the foreign currency loan portfolio and the continued increase in MUR excess liquidity invested mainly in Treasury Bills and GOM/BOM Bonds

Net fee and commission income increased by 3.4% to Rs 690 million as a result of larger loan disbursements in foreign currency during the period under review as well as increased volume in payment services.

Profit arising from dealings in foreign currencies and net gain from financial instruments carried at fair value rose by 16.4% to reach Rs 444 million, which further helped the bank's performance during the period, on account of mark to market gains on our increasing portfolio of held for trading securities.

Non-interest expense grew by 7.3% to reach Rs 1,341 million driven mainly by increases in staff expenses and software and hardware maintenance costs, aimed towards capacity building. The cost to income ratio reached 38.9% and remained at a comfortable level.

Net impairment of financial assets amounted to Rs 251 million whilst the bank's non-performing loans to gross loans ratio declined to 5.4%.

The bank remains strongly capitalised with a Tier 1 ratio of 15.5% and a BIS ratio of 16.4% at the end of the quarter, well above the regulatory requirements.

Going forward, the bank expects to realise its pipeline of projects and maintain the momentum on other revenue generating initiatives as well as embarking on various bank wide realignment/transformation initiatives, which should allow it to achieve its strategic ambitions.
