COMMENTS ON RESULTS

Operating profit before impairment for the nine months ended 31 March 2020 increased in line with expectations to reach Rs 9,233 million representing an increase of 11.2% from last year. This includes a drop in the fair value gain in equity investments amounting to Rs 69 million when compared to the same period last year, as a result of the impact of Covid-19 on the global stock markets.

Despite the above, Profit after tax dropped by Rs 560 million (8.8%) to reach Rs 5,783 million compared to the same period last year. Profit after tax for the quarter to 31 March 2020 amounted to Rs 939 million (2019: Rs 2,228 million) with impairment charges for the quarter amounting to Rs 1,792 million compared to Rs 829 million for the six months period to 31 December 2019. Specific provisions (net of recoveries) for this quarter amounted to Rs 304 million whereas expected credit losses (ECL) on the performing assets portfolio amounted to Rs 1,488 million.

This significant increase in ECL reflects the inherent increase in credit risks and our forward looking view of the impact of the Covid-19 pandemic on our operations, based on certain assumptions made in our credit modelling exercise amidst significant uncertainties on how future developments will unfold not only locally but also in our major markets.

Loans and Advances to Customers rose by 7.4% to Rs 227.1 billion whilst Total Deposits from Customers rose by 21.7% to Rs 361.4 billion. These trends comforted the Bank's liquidity position notably in foreign currencies. The Bank's foreign currency loans represent 65% of the funding base while its US dollar Liquidity Coverage Ratio stood at more than 180% as at 31 March 2020 which is well above the Basel III regulatory norm.

Shareholder's equity went up by 9.7% to reach Rs 52.1 billion as at 31 March 2020 and the Bank's BIS ratio and Tier 1 ratio at 16.1% and 15.1% respectively, remained at comfortable levels.

OUTLOOK

Like most governments worldwide, the Mauritian government has put into place a number of measures to accompany businesses and citizens to assist them in sustaining the shock of the current lockdown with our frontiers closed since 18 March 2020 and the country being in sanitary confinement since 20 March 2020. The measures implemented during this period are primarily aimed at providing lines of credit and government guarantees for working capital purposes as well as direct wage assistance to ensure that employment is maintained.

It is however evident that businesses in certain sectors will need continued support from the government beyond the sanitary confinement period and we await to obtain more visibility in the form of the government's response and accompanying measures in addressing the vulnerabilities of these sectors.

In the light of the above, the Board will continue to assess the situation closely as local and worldwide developments unfold and it expects the results of the Bank to be subject to some volatility over the next few quarters.
