THE MAURITIUS COMMERCIAL BANK LIMITED

Unaudited Interim Summary Financial Statements - 31 December 2021

COMMENTS ON RESULTS

The Bank reported strong results with Profit after tax for the half year ended 31 December 2021 growing by 16.6% to reach Rs 4.5 billion. The half-year performance continues to be sustained by both core operating performance and lower Net Impairment of financial assets.

Net interest income rose by 1.9% and reached nearly Rs 7.0 billion despite the significant expansion in the loan portfolio related to the short term advances and commodity trade finance loans which command lower interest margins. In addition, on the local currency side, the income from higher excess liquidity volumes was offset by lower re-investment yields.

On the other hand, Net fee and commission income rose significantly by 37.5% reaching Rs 2.5 billion with improvements in cross border trade finance and bank guarantee fees. Cards income was higher than the same semester last year, with improved acquiring fee income following the re-opening of borders as from 1 October 2021. In addition, there is an encouraging shift from cash to digital payments locally.

Other Income fell from Rs 1.3 billion to Rs 1.0 billion. The strong performance in profits generated from foreign exchange transactions were more than offset by the net loss in fair value of foreign equity instruments, amidst the volatile foreign stock markets.

Overall, operating income increased by 6.0% to reach Rs 10.5 billion whilst Non-interest expense increased by 12.5% to reach Rs 3.7 billion driven by planned investments in technology and human resources. This resulted in a rise in cost to income ratio to 35.0%.

Net impairment of financial assets during the half year fell to Rs 1.8 billion compared to Rs 2.3 billion for the same period last year representing an annualised cost of risk of 1.1%. Gross Non Performing Loans ratio stood at 3.5% and remains at a satisfactory level.

Shareholder's equity went up by 14.4% to reach Rs 65.5 billion. The Bank's BIS and Tier 1 ratios remained strong at 16.9% and 16.0% respectively.

Looking ahead, we expect the Bank's operations to remain resilient and well positioned to benefit from improved global economic conditions and the removal of Mauritius, in October 2021, from the FATF 'grey list'. The local operating context remains challenging whilst support measures are gradually phased out and the tourism and hospitality sector embarks on its recovery path.
